Sponsored by

Technical Education Quality Improvement Programme (TEQIP) II

(A MHRD, Govt. of India Project)

About the Workshop

In recent years, Nano Science and Technology has emerged as an important branch of modern science and technology due to its potential applications in various fields like medicine, drug delivery, surfaces and coatings, textiles, food, cosmetics, sports, biological sensors, aerospace and vehicle manufacturing, catalyst, cement, glass etc. This workshop is intended for a complete and compact view about Nanoscience and technology; the lectures will equally cover the areas of synthesis, characterization and application of nanomaterials. The objectives of the workshop is to bring together researchers and technocrats from different parts of our country to a common gathering for sharing of the basics as well as the recent developments of the subject. This will also act as a platform to establish new collaborations among the participants and the renowned speakers.

Who can Attend

NWNST-2015 is aimed to attract and bring together Faculty Members, Scientists, Engineers, Technologists, Research Scholars and PG students from Academic Institutions, R&D Organization, and Industries. The participants will benefit immensely and will get new insights about the topic through close interactions with the eminent speakers during the lecture sessions.

Boarding & Lodging

Boarding, lodging and travel expenses shall be borne by the participants. Several good hotels are available in and around Bankura. Participants may contact directly or through the convener for accommodation in Hotels. No TA/DA will be paid to the participants by the Institute.

Registration Fees

- Faculty Member of Academic/R&D Institutes ₹ 2,000/-
- Research Scholars & PG Students ₹ 1,000/-
- Industry Personnel ₹ 3000/-

Registration fee includes study/lecture materials, refreshment and lunch for 5 days during the course.

The Institute & its Location

Bankura Unnayani Institute of Engineering, established in 1998, is a leading technical institute offering undergraduate and postgraduate programmes in various disciplines of engineering and technology. It was established by the local people of Bankura who came together under Bankura Unnayani Society to form a technical institute for the development of the rural district. Gradually the institute became the modern face of rural Bankura not only by providing quality education to students but also by imparting modern outlook among the local people. The education system is equipped with all types of skill and personality development techniques for all-round development of the students to prepare them for facing the challenges of both professional world and society. The institute has been recognized as a QIP centre in Engineering & Technology by AICTE and it is among the few engineering colleges in the state selected for Phase-II of Technical Education Quality Improvement Programme (TEQIP), a world bank sponsored project.

Bankura is a place of art and culture and it is also enriched with natural and historical treasures. Places like Bishnupur, Mukutmonipur, Susunia and Biharinath hills are notable tourist destinations of the district. Bishnupur is famous for terracotta temples whereas other three places have scenic natural beauties.
